

When Zonolite was purchased by me, I in good faith believed the product to be free of asbestos & safe. At that time I also handled the product at my employment daily, loading & unloading Zonolite in bags, that at times broke open, and were cleaned up by hand with no protection.

I installed the Zonolite in my attic, feeling it was safe for me and my family & know it's deemed unsafe. And due to the fact that I decline no one save's receipts for 30 years, I am requesting that this be reconsidered as proof and I can get samples of the product for proof out of my attic even though I feel it's a HasMat Team job not mine.

I request the courts reconsider my plea and predicament and adjust my claim to be valid! (To pay for removal of Zonolite)!

I am reluctant to send 30 year old Zonolite in the mail due to Homeland Security and Safety reasons, but will do so at the courts request. I respectfully await your decision!

Thomas Campan.

Am I to live with this
Health threat over my head?
